## WORK EXPERIENCE

### React Frontend Developer

#### Arkay Apps

01/2023 - Present

5 Month

##### Achievements/Tasks

- As a React Developer at Arkay Apps, I played a key role in building and maintaining innovative web applications that delivered exceptional user experiences. Leveraging my expertise in React.js, I collaborated with a talented team to develop robust frontend solutions, contributing to the company's success in meeting client needs and surpassing project goals.

### Internship

#### Warble Solutions

09/2022 - 12/2022

4 Month

- At Warble, I excelled in a diverse role that spanned graphic design, content creation, and WordPress development. I crafted visually compelling designs, curated engaging content, and built user-friendly websites, leaving a positive impact on the company's creative endeavors and digital presence.

## PROJECTS

### Personal Portfolio

- I have created my own portfolio.
- I have used Bootstrap, HTML, CSS and Git software.
